## Official Supporter of the Creativity Alliance

There are millions of White people in the world who, whether they at this time realize it or not, are aligned with the mission of the Church of Creativity. However, while they may be so aligned, many for various reasons either do not wish to become members or are unable to meet the standards or duties of membership. Since many of these White Racial Comrades would like to support The Church in its efforts if given the opportunity, and since The Church most assuredly desires and needs this support, there exists the Official Supporter of the Creativity Alliance.

There are many White people who are wary of being a member of the Creativity Alliance because of possible persecutions. Others believe in its crusade of saving the White Race but are unsure about or even disagree with its anti-Christian principles. Others may feel that they cannot commit to The Church's legal and peaceful road to power, or may have membership in another White Racialist organization. Still others may simply not be ready to submit to the necessary discipline involved in becoming a Church Member. Finally, others may have wished to become Church Members but have not been accepted at this time. The Creativity Alliance, however, needs the support of all of these varied groups, invites it without condition, and realizes that if it were to receive the support of all those who agree with the essentials of its mission, Victory would come in a very short period of time.

The Official Supporter thus has total flexibility and being an Official Supporter is therefore attractive to many for that reason. It is completely up to the Official Supporter in what way he or she wishes to additionally support The Church, if at all. Therefore, unlike the Application for Church Membership, this document produces no binding obligation upon the Official Supporter. The Official Supporter will also receive a wall certificate (like the Member) as recognition by The Church of their most appreciated support.

Note: The Official Supporter's status is always kept confidential.
