We Can Still Rise Again

... But Popularity is Fickle

ANZAC Day: 25th of April, 2016: It is 05:30 am, and as I write this piece, thousands of people are gathering around war monuments in Australia and I can hear the distant echo of bagpipes as the Dawn Service begins another commemoration of ANZAC Day.

What is ANZAC Day? In Australia and New Zealand, the 25th of April is the day each year on which the ANZAC (Australian and New Zealand Army Corps) landed at Gallipoli in 1915. The campaign objective was to capture Constantinople – the capital of Turkey – and to knock the Ottoman Empire out of the First World War. The ANZACS were soon joined by other British and Commonwealth, and French troops. My Great Grandfather was there with the Royal Scots Fusiliers.

The campaign was ultimately a failure with the allied troops abandoning the position in January of 1916.

In Britain, the Dardanelles Offensive as it is known was treated as a debacle. Churchill was held accountable in 1916 and sacked from his position. There were no tributes to the fallen and no campaign medals were issued. Gallipoli was considered to be a national embarrassment. 1919's appointment of Churchill as a Cabinet Minister in Parliament led to an uprising in Scotland, that was put down with troops.

Sombre Memorials and Drunken Celebrations: In Australia, ANZAC Day is considered to be part of the birth of the nation. A cause for sombre memorials and drunken celebration. Remembrance Day/Veterans Day on the 11th of November is largely ignored in Australia. After the two world wars, and the Korean and Malayan conflicts, ANZAC Day remained a popular public celebration right up until Vietnam.

By the early 70's, ANZAC Day was hardly mentioned in the press. The annual ANZAC Day parade dwindled down to old men looking to catch up with old mates and getting paralytic drunk, or regaling the grand kids with tales of adventure.

By the 80's when I was a soldier, the status of ANZAC Day in the public mind had not changed since the 70's. Soldiers were hated in general society. If we went into bars in uniform, it was to fight with the civilians. If we were seen on the street by the state police, we would be pulled over, insulted and grilled as criminals. Any soldier that was arrested – on whatever spurious charges a copper could lay – was treated as an immediate and lethal threat to society. Spitting on uniformed soldiers was still common. And the Returned Servicemen's Leagues (RSL's) that organised and funded the ANZAC Day memorials and celebrations treated us like shit on the shoe. In short, we were hated by the general populace, and in return, we hated those for whom we were supposed to willingly lay down our lives.

Given the opportunity, I would have gladly shot and bayoneted any number of protesting peaceniks that got in our way on ANZAC Day or any other day.

As active servicemen, we were ordered to participate in the ANZAC Day marches, as well as supplying logistical support for the old men of the RSL's and the Boy Scouts participating in the memorial services and marches. By midday we were ordered back to the base for the obligatory piss-up. If you wanted to see your family or friends, you had to invite them to the piss-up. Civilians with no connection to the military were not permitted; this was our world.

Fast forward twenty-five years and everything has changed. Thousands of people attend the ANZAC Day memorials and celebrations; the RSL's are now begging for my membership; and if I participate in ANZAC Day celebrations and wear my medals, there's always some grateful civilian that wants to patronise me with a pint of beer.

Do I attend? Only when I judge that there's a chance of violence by our racial enemies. Other than that, I want nothing to do with ANZAC Day. I don't need to be patronised by civilians on that one day a year merely because it's now the popular thing to do. I know that the moment the celebrations end, the average person will go about their business as before, and as an ex-soldier, the traitors in charge will once again declare that I am a threat to society.

Popularity is fickle. Although the traitors in charge pay lip-service to former soldiers on ANZAC Day and active soldiers occasionally throughout the year, they do so because they need the Australian Defence Force to participate in their wars for Israel and the promotion of the myth of multiculturalism. So, to advance their own ends, they portray soldiers in the mainstream media as national heroes. 9/11 has been hammered so far into people's psyche's that the average person understands and accepts that we have been at war for fifteen years now. They accept that soldiers have a duty that they will never understand and they therefore accept that it is their role to be grateful for the sacrifices that soldiers willingly make for their nation and people. Right or wrong, that is how the average person feels.

So, when I see the emotional outpour from the thousands each ANZAC Day, I cannot help but think that if we can just educate these people – wake them up to the horrible truths of the world and point them in the right direction, then they can and will be able to secure their own existence and a future for White children. Which also means that, like ANZAC Day, we White Racial Loyalists – the real Patriots – may once again become popular.

On the other hand, if the ordinary White Australians, Americans, Brits and other Euros fail to wake up and pull their own collective fingers out, their own fear and lethargy will at the very least, have them accept that it is their role to stay out of our way while we take the lead in this war for what remains of our formerly all-White Nations, for the salvation of civilisation and a future for their children. That at least is the way things seem to be going for the moment – but even that probable acceptance remains fickle. Nevertheless, whatever happens, our task for the foreseeable future remains one of education for the masses with the knowledge that we are Building a Whiter and Brighter World.

Poetry: When I Think

my eyes.

When I think of my White Race, I like to think of it with White pride, but when I think of my White Race and its current existence, it brings tears to

When I think of my White Brothers and Sisters who are lost and weak, who listen to Jewish propaganda and are afraid to speak, speak out

for pride and defend Our Race ...

When I think of our beautiful White Children, the Future of Our Race, their genes are being manipulated by the colored races, emersed in a sea of mud, forever doomed to a horrible and terrible fate ...

That will be the end result, if we don't stop it before it's too late ...

When I think of the Salvation, the Glory to come, the awakening of the Racial Consciousness of m people, to undo the awful

Damage that has been done ...

When I think about the existence of my White Race, worried is what I am. My thoughts are filled with sadness – with the heavy burden I must bear.

Creativity is the Only Way

There is only one way to go for the Survival and Preservation for the Noble White Man and Woman, and that is Creativity. Most religion is a farce with occult like mentality amongst its members. Just take a look at the Muslim and the Jew. The two are very similar in teachings and both want to rid the world of the White Man along with our Heritage. Too many Christians and Catholics are more than happy for the Muslim and the Jew to eradicate the White Race forever. And if we do not all unite soon as a true White World Army, we will be eradicated along with our Future and Heritage forever. Creativity with the White Man's Bible is the only way to go for people who want to make a difference in the White Man's struggle.

A Joke

An Indian and an Englishman are debating about which of their cultures is the superior. The Englishman asks the Indian, "With which hand do you wipe your bottom? And with which hand do you eat?"

The Indian, with a smug smile proudly declares that he wipes his bottom with his left hand and eats with his right ... and then shoots the same question back at the Englishman, whom, with an air of dignity and a stiff upper lip says, "We English do not use our hands. We use paper to wipe our bottoms and we eat with a knife and a fork."

The Obligatory Cowardly Hate Mail

You. Are. Worthless. Please kill yourselves, it would genuinely be a service to humanity if you died. Putting up race barriers will only cause the world to become even more terrible of a place than it already is. I would not normally say this but in this case there is no other response, your beliefs are incorrect. I'm not trying to persuade, as you are clearly close minded and will not shed your ignorance. I hope you find the true path eventually, in this life or the next.

Letters from Prison White Man Unite

You Owe It to Our Children to Battle for their Lives

By Reverend Dr Joseph Esposito

Imperator of Prisons

<http://rahowadirectory.com/esposito>

White Racialist Greetings to all fellow Creators across the world and all White Racial Loyalists worldwide from the Special Housing Gulags of Oregon.

In America's prisons, the swine have complete control. They use petty games against White Men such as denying outside exercise, food trays, leave the lights in the cells on 19 hours a day, steal inmates' property such as radios, watches, personal photos et cetera, et cetera. The swine also set us up with false disciplinary reports if you complain or write grievances. They continue to house known White Racialists and White Gang members with sub-human niggers, muds, child molesters, rapists, sexual offenders and think it's okay. So far, three White Brothers here (or that have been here), have attacked animals with weapons to earn their place in the ranks of White Warriors, who refuse to live with these animals.

Prisons in states such as New York, California, Ohio, Oklahoma, Tennessee and Arizona maintain separation in lock-down situations of prisoners who have White Racialist backgrounds or membership in White Gangs. Here in Florida, it is a melting pot of human filth and sub-human niggers and muds, and the stand-up White Man is in the middle. He has to contend with the nigger

animals he lives with and the swine that control the place, who love and protect the sub-humans, promote degenerate homosexual relationships and seem to hand the stand-up White Man who is proud to be a White Racialist.

I have been in prison here in this nigger-loving state for 17 years, and every year, the Swine become more niggerised. The Whites that come to prison have no Racial Pride or White Morals at all; No Creators come to prison – which is a good sign; And most turn back to Judeo-Christiansanity in the long run, because they let the Swine break them. I am a Creator and a proud member of the Church of Creativity, and because I want to survive in the Gulags, a member of a White Prison Gang that has nothing at all to do with Creativity or the Church of Creativity, but both stand for our Race and its survival – inside prison and out. Yet, we stand-up White Men are persecuted by the Swine for our proud White beliefs and skin color, and our necessary hatred of the sub-humans and sex offenders. Do the Swine take fags, child molesters and rapists to their homes for dinner? Do they invite niggers and other muds to their homes for sunday get-togethers? I, as a White Racial Loyalist, think not.

So why do the Swine abuse stand-up White Men for doing what they themselves do? Leave them alone and remember that you were White before you became the hypocritical Swine that you are today. In order to gain respect, you must give it – no matter what your situation in life! So to all Swine, if the color of your skin is White, then show us White Racialists the respect we deserve, and save your torture for those that rightly deserve it.

THE COLOR OF OUR SKIN IS OUR UNIFORM

This may have been short, but most reading this will understand what I am talking about. My love for my Race and the Church of Creativity and all my White Brothers and Sisters remains strong and goes deep.

RaHoWa!
For a Whiter and Brighter World.

Wake Up and Stand Up!

**Be Proud, Stand Strong ... Defend the White Race
Become a Militant White Activist
By Reverend John C. Barletta**

The time for being openly proud of White Culture and being strong in defending the White Race is now! We must begin to do the work that is absolutely necessary in order for us to successfully raise our children and rebuild our culture.

The responsibility of rebuilding our culture and stopping the destruction of our race rests upon this prime factor: "Securing the existence of the White Race and future for White children." All other cultures and/or races share the value system of supremacy. So we too as the White Race must begin to acknowledge the same value system of supremacy in order for our race to have a future. With all other cultures having these value systems, it is clear that they will not do anything at all to assist us

White folk. Therefore, for the White Race to win in our struggle for our very existence and a future for White children regardless of the amount of re-education that our people are given, we as a whole must “Wake up and Stand up” now for our own Racial Future.

We, as a race should not need to feel pressured about becoming involved with today’s effort to rebuild our Beautiful Race – the White Race. We should be proud to stand as one. We must maintain the vision – the ability to see beyond the necessary and challenging cultural rebuild; that circumstance has provided Our Race with the necessary optimism to struggle through periodic adversities will carry us through.

The vision of our White Culture plays a paramount role in our historical development as a people - a culture that has to face the enduring challenge of our mortal destruction – our history is a reflection of the vision of our current existence and of our future.

I see that our people on the whole have become disconnected from our historical vision – our Manifest Destiny. This disconnection has affected the outlook of our people with an absence of vision among many of our younger brothers and sisters, and their acceptance of oppression has much to do with us as visionaries failing to provide them with the vision they need ... the foresight to create a better situation for the ongoing future of Our Race. If we as Creators – as White Racial Loyalists and Militant Activists want to change this situation, we must first change the image our brothers and sisters have of themselves. And we must alter our current racial situation, being the guilt-ridden, willing suicidal destruction of Our Race.

Vision is inspiration for the future; that which gives us the courage to stand up Stand up and Fight, to build up Our Race, to give White folk a purpose, a direction and identity ... And as Creators, a philosophical foundation as a Racial Nation. We must give our people an image; allow White folk to understand that we are a People of Nobility and Worth. That we should applaud Self Esteem, Honor and Pride in ourselves and of Our Race. We must maintain Self-Respect: The respect that we give ourselves we should give to our Racial Brothers and Sisters. Give that respect by understanding ourselves, Our History, Our Culture and Our Race. And most of all, by making an effort be a part of Our Struggle and become a Militant White Racial Activist – Wake up and Stand up in this great struggle for the future of Our Race.

Once we as a racial group once again gain that Self-Respect and Honor, to lose it would not only be disrespectful and dishonorable to ourselves, but also to our children and all of our people across the Earth. So why should we continue as our racial enemies dictate and stand against the Eternal Laws of Nature? Why not love our own people and Stand up for a Whiter and Brighter Future?

When all is said and done, everything you read, see and hear does not mean a thing if it hasn’t give you some insight - some food for thought and motivated you to wisen up and Love Your White Race; to Wake up and Stand up for Your Culture and Race. For creating a a better – a Whiter and Brighter World for those not yet born, and securing the existence of our glorious White Race and future for White Children.

**The Time is Now!
Wake Up and Stand Up!**

White Supremacist Plans Church In N.C. Mountains

MULBERRY (AP) — Hailing Nazi Adolph Hitler as a great man and scorning Jesus Christ as a myth, an avowed white supremacist says he's building a church which will disseminate white-power messages.

Called the Church of the Creator, its founder, Ben Klassen, 63, of Lighthouse Point, Fla., says the religion is for white people only. He says it considers blacks and Jews as two of America's greatest threats.

Klassen says he is now supervising construction of a church in the small Macon County community where people can practice the religion.

The church's literature says Hitler as one of the greatest men who ever lived and Jesus Christ is myth created by Jews to gain power.

Local black leaders say they do not fear Klassen and his church, and the regional director of the

Jewish Anti-Defamation League calls Klassen a "kook."

Norman Olshansky, regional director of the ADL in Richmond, Va., said the league was monitoring Klassen, but said his major visibility thus far has been in press reports.

Olshansky said Klassen has disseminated anti-Semitic literature across the nation but no one knows how many people practice his beliefs or are ministers in his churches.

Mulberry, located less than three miles from the Georgia-North Carolina line, was chosen for a church site because Florida is in peril, Klassen said.

"I think south Florida is due for a lot of turmoil when bloody fighting breaks out," Klassen said. "Actually, I expect the financial collapse of the entire country, and blood will be flowing in the streets."

White Supremacist minister gets seven-year sentence

The Associated Press
FRANKLIN, N.C. — A minister, who had been sleeping nude on church property before he opened fire on a Georgia couple who had stopped to mix a drink, was sentenced to seven years in prison Wednesday.

George C. Messick, who represented himself in the trial, was sentenced by Superior Court Judge Walter Allen to three years in prison for one count of discharging firearms into an occupied vehicle, and two years each on two counts of assault with a deadly weapon. The sentences are to run consecutively. Messick faced a maximum of 14 years in prison.

Messick gave notice of appeal, and Allen ruled that he should be held without bond during the appeal process.

A Macon County jury deliberated 45 minutes Tuesday before finding

Messick guilty of firing 19 shots into the vehicle that had stopped near Church of the Creator property in June.

Messick said he felt threatened by the Georgia couple in the car because he had earlier heard voices threatening to burn the church.

William J. and Patricia Ann Trusty, of Dillard, Ga., testified Monday they had turned onto the church's road at about 8 a.m. June 14 while looking for a friend's house. They said they turned around and were coming back onto the road when they stopped for Trusty to mix a drink.

Messick, who asked himself questions and then answered them, testified he was sleeping in the nude on the church deck when he was awakened by voices.

He said he put on camouflaged clothing, circled the church and opened fire with a rifle in self-de-

fense. He said he did not shoot for the "kill zone."

Messick said he was in "dread fear of my life" based on incidents in the past when the church was shot at and once firebombed. He said he believes a person has "a right to shoot to kill in self-defense."

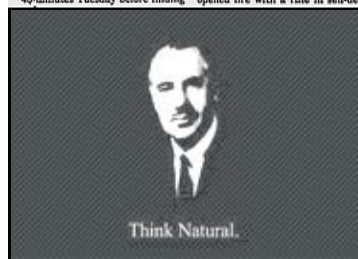

Messick claimed he is an expert marksman and served 12 years in elite units of the Navy, Marine Corps and Army Reserve. He said he once was attached to an underwater demolition team of the SEALs, the Navy's equivalent of the Army's Special Forces.

Assistant District Attorney Jerry Towson said Messick failed to prove he was threatened by the Trustys and that Messick had admitted that the road on which the church is located is a public highway.

Messick told the jury it was unusual for someone to be driving around at 3 a.m. looking for friends.

"What's unusual is a nude preacher sleeping on the balcony with an AR 15 rifle," Towson said. "The church, built in 1982 by Ben Klassen, teaches 'creativity' that Klassen says is a 'powerful religious creed and program established for the survival, expansion and advancement of the great white race exclusively.'"

Klassen was called as a witness by Messick, but he refused to reveal his church membership. "My religious activities and beliefs are not subject to discussion in this court," Klassen said.

Australia: Sand Niggers Burn Down Own Religious Building for Insurance - Blame White Australians - Threaten Violence

Dune Coons on social media are blaming White Australians for this fire. Their talk is of shooting, butchering, bombing and burning White Australians. I believe they did it themselves for the insurance and are now trying to force a trial-by-social-media to prevent any investigation. And if that does not work, the threat is a suburban Jihad.

What Must Be Done

Fire and rage burn inside, but I will hold onto my pride.

My Race and my family make me brave,
They are all I want, I do not crave ...

We will fight for what we believe,
Our land we will retrieve.

Our Race is Nature's Finest,
So I can't understand people's blindness.

All the mud races must be banished,
For look at the work they have damaged.

I look around, what do I see?
Ugly brown faces staring at me.

Our people must look like my mom and my dad,
They don't now, that makes me mad.

We don't want to be mongrelized,
We want to be Nature's Finest deep down inside.

Now sit down and think of what I just said,
Remember our cause until your dead.

I hope what I wish comes true,
And that people Come to look like me and you.

I am proud of what I just wrote,
And now I will read it to my folk.

Boycott Harvey Norman – Employ Australians not Syrian refugees!

The Australian government is taking in some 12,500 so-called-refugees from Syria.

Harvey Norman has agreed to employ some of these people at special rates of pay.

Rather than employ needy Australians, they employ aliens. What about giving an unemployed Aussie a job? Why not give a disabled Aussie a job?

And more! Harvey Norman workers will need to make sure – if the situation in Germany and Sweden is anything to go by – they are protected from Muslim sexual assault and violence.

Gerry Harvey, billionaire proprietor of Harvey Norman, was caught out on an Australia First Party video slandering Australians as people who don't want to work.

The only way to deal with Harvey Norman is to consider not buying there. Why not boycott Harvey Norman? It is the right thing to do. The pro refugee propaganda covers up that some people just want to profit. Give Gerry Harvey nothing!
